SUMMARY

I'm a Computer Science undergraduate focused on building digital experiences that are both practical and memorable. My work spans software engineering, web development, and intelligent systems, with hands-on experience creating AI-powered platforms, full-stack products, machine learning prototypes, and responsive web applications. I enjoy learning new technologies, working closely with teams, and turning ideas into clean, user-focused solutions with strong technical execution.

TECHNICAL SKILLS

Programming Languages : Python, Java, JavaScript, TypeScript, SQL

Web Development : HTML, CSS, React, Next.js, Tailwind CSS, REST APIs, Responsive Web Design

Databases : MySQL, Supabase, PostgreSQL

AI & Machine Learning : Machine Learning, Computer Vision, Data Analytics, OpenCV, PyTorch, TorchVision

Tools & Libraries : Recharts, PapaParse, Clerk, Git, GitHub, Figma, Framer Motion, GSAP, jsPDF

FEATURED PROJECTS

Adorix | AI-Powered Interactive Sales Kiosk | 2026

<https://github.com/ADORIX000>

- AI-powered smart advertising kiosk built as a real interactive edge-device system for personalized digital signage.
- Contributed across IoT/device integration, computer vision, voice interaction, backend logic, Supabase sync, documentation, and key parts of the hosted web platform including authentication, payment gateway logic, and product flow.
- **Tech**: Python, FastAPI, React, OpenCV, Supabase, WebSockets, Voice AI, Raspberry Pi / Kiosk Deployment, Payment Gateway Integration

DataLens AI | Data Analytics Platform | 2026

<https://github.com/SithikaWeerasinghe/DataLens-AI>

- Modern data analytics platform that transforms uploaded CSV files into interactive dashboards, automated visualizations, statistical summaries, and AI-style insights.
- Built to make data exploration easier for users without deep technical knowledge.
- **Tech**: Next.js, TypeScript, Tailwind CSS, Recharts, PapaParse, Framer Motion, jsPDF, Data Analytics

ApexFled | Premium Digital E-Commerce Platform & Account Store | 2026

<https://github.com/SithikaWeerasinghe/digital-account-store>

- Full-stack digital products e-commerce platform with variant-based inventory, integrated payments, and automated account delivery.
- Built the project across frontend, backend, database, admin functionality, and fulfillment workflow.
- **Tech**: Next.js, TypeScript, React, Tailwind CSS, Supabase, PostgreSQL, Mercado Pago, NOW-Payments

GRAS | Premium Restaurant Website | 2026

<https://github.com/SithikaWeerasinghe/Gras-Restaurant>

- Premium restaurant website developed as a real client-facing platform for showcasing the brand, menu, and online table reservations.
- Contributed to building the final website direction and customer-facing experience for real use.
- **Tech**: Next.js, React, TypeScript, Tailwind CSS, Framer Motion, Responsive Web Design

SceneSeek | Movie Identification Prototype | 2026

<https://github.com/SithikaWeerasinghe/scene-seek>

- Computer vision prototype that identifies a movie from a short video clip using deep visual feature extraction and similarity matching.
- Built the full workflow independently from clip analysis to prediction output.
- **Tech:** Python, PyTorch, TorchVision, OpenCV, NumPy, ResNet18, Computer Vision

TECHNICAL MINI-PROJECTS

Property Finder Web Application | Responsive Web Application | 2025

<https://github.com/SithikaWeerasinghe/property-finder---Advanced-client-side->

- Responsive property finder web application built as an individual project with a focus on user-friendly browsing and clean interface design.

ASDY Foundation Web Project | Coursework Web Project | 2024

<https://github.com/SithikaWeerasinghe>

- Coursework-based web development project where selected pages and frontend components were implemented with attention to responsiveness and structure.

EDUCATION

BSc (Hons) in Computer Science (Undergraduate)

2024 – 2028

Informatics Institute of Technology (IIT), Sri Lanka | Affiliated with the University of Westminster, London

G.C.E. Advanced Level – Physical Science Stream

Completed: Dec 2024

Bandaranayake College, Gampaha | Subjects: Physics, Combined Mathematics, Chemistry

CERTIFICATIONS

Introduction to Modern AI — Cisco Networking Academy

Introduction to Cybersecurity — Cisco Networking Academy

Introduction to Data Science — Cisco Networking Academy

Ethical Hacker — Cisco Networking Academy

Fundamentals of Digital Marketing — Google

E-Learning Theory and Practice for Publishers — Alison

LEADERSHIP & ACTIVITIES

Assistant Creative and Media Director — Leo Club of IIT

2025/2026

Member — Leo Club of IIT

Organizer — Science Society, Bandaranayake College, Gampaha
